

NEWS FLASH!

Stay up to date with the latest information about RISO Marketing initiatives.

Dear Dealer,

Please be advised that the company's latest digital duplicator, the RISO MF9450, is now available for sale in the US and Canadian markets. As a replacement to the high-speed, high-volume ME9450, the RISO MF9450 produces two-color documents in a single pass at rates of up to 150 pages per minute.

Material containing information on the MF9450 is currently available to all RISO dealers on the [RISO dealer website](#). There you will find electronic brochures for the MF9450 and pricing, available for viewing and [download](#).

The MF9450 is packed with improvements that make it faster, sharper, and easier to use. Combining true 600x600 dpi image quality with high-speed two-color printing, the RISO MF9450 produces sharp, clear images, even with fine lines and small characters. Swappable color cylinders provide over 70 available colors to choose from, and the MF9450 accommodates a wide range of paper types, giving you a range of output options.
