## **Introducing the SF series, the all-new global brand that meets all kinds of user needs**

Employed in over 180 countries and regions, RISO has been successfully meeting all user needs by constantly listening to the feedback from our customers in order to continually improve our products. The SF series is an important milestone and a masterpiece of our ceaseless innovation. With the fastest speed in its class plus the superior operability and print quality, the SF series ushers you into a higher dimension of printing.

“Since print volume is normally very large, time and costs are major concerns.”

## RISO offers outstanding productivity through high speed and low cost.

### High-speed 130 ppm printing

Achieving 1000 pages printed in approx. 8 minutes. This surprisingly rapid rate will efficiently support your heavy paperwork requirements.

### Quick Master Making mode **NEW**

A new function, speed priority mode, shortens the master-making time while still maintaining high image quality.

### Heavy-load paper feeding

The paper trays have a capacity of 1000 sheets\* for both feeding and receiving, which ensures uninterrupted printing over a longer period.

\*When using the following weight of paper: 17-lb bond to 21lb-bond

### Overwhelmingly economical print costs

The SF series makes prints from a master. As a result, the more pages generated from each master the lower the cost per print, making it highly economical for medium- to high-volume printing.

Print quantity and cost per print

### Paper saving

Page layout printing combines multiple copies of the same page, or copies of multiple pages onto a single printed page to save paper. Conveniently condense bulky multiple-page documents in an easy-to-read format. These functions are available when using the printer driver.

### Versatile paper handling capability

The SF series plays multiple roles, accepting a wide range of paper types such as recycled paper, coarse paper, cards and envelopes.

### Easily adjustable receiving tray **Improved**

The receiving tray can be adjusted easily with a click feeling for each standard paper size. Improved design allows printed papers to settle in an orderly way for smooth pickup.

“Aren’t digital printers difficult to operate?”

**No need to worry.  
Operation is easy for everyone.**

**Redesigned control panel** Improved

New, easy-to-use control panel provides intuitive operation.

**Easy-to-use LCD panel** NEW

The information on the 128 × 64 dot LCD panel can be easily viewed, and it also shows the residual capacity of supplies to prevent an out-of-stock situation occurring.

**Various printing approaches**

The SF series offers various ways of printing, depending on your specific requirements.

- Standard equipment of PC-I/F
- Direct printing from a USB flash drive

**RISO console** NEW

The total management system improves convenience by integrating applications in one place. Product, consumables and system information can all be checked easily on your PC.

**Versatile program print**

For example, you can print question papers for three different classes, A, B and C, that contain different numbers of students. Simply set up the program, place the three original tests in the Auto Document Feeder and press “print” — you’ll automatically receive the required numbers of each individual test.

“We don’t want to compromise the beauty of the finish.”

## Images and text can be printed with outstanding quality.

### High image quality 300 × 600 dpi printing **Improved**

Improved resolution for both scanning and printing. This achieves sharp and clear output with the highest image quality.

### Enhanced features for clearer output

#### High scanning quality **NEW**

The newly designed scanner attains smooth tonal gradation even with photo images.

- Reduced blown-out highlights via equalized dot description

#### Improved image-processing function **Improved**

Decreases image deterioration through improved image processing, delivering clearer output.

- Minimizes blocked-up shadows through enhanced gamma correction
- Sharp outlines with contour enhancement achieved

### Other various functions for optimum output

- Auto base control
- Tone smooth function
- Four image-processing modes: Line, Photo, Duo, and Pencil

“How can we manage the information and consumables.”

## We support information and consumables management.

### IC card security

Enhanced security by an optional IC card activation kit. Only an authorized user can perform printing, effective to prevent divulging information from secret documents.

### Usage report

The SF series provides RISO Copy Count Viewer for counting users' printouts, useful for understanding expenses and usage restriction. The aggregate results are available via printout, USB flash drive or email.

“Ecology is an important concern to us all.”

## We strongly care about global environmental issues as well.

### Eco-friendly

The SF series consumes 1/10th the energy, compared with energy star guidelines.

- ENERGY STAR® qualified and RoHS certified
- Complies with the ErP directive in Europe
- Consumes less power and produces less heat
- Energy-saving system

### Rice bran oil ink **NEW**

The rice bran oil ink contributes to environment sustainability. Rice bran, which would be otherwise wasted, is a raw material with no VOCs, so after the oil is extracted for the ink. It can subsequently be used as fertilizer or animal feed.
