

High Capacity Accessories

Increase the productivity of your X1 Series inkjet printer with RISO's High Capacity Feeder and Stacker.

The innovators at RISO understand that increased speed can only take you so far. With your printing capabilities now accelerated to achieve higher volumes and longer print runs, you now need the capability to process that additional material.

Ideal for high-volume print environments, our RISO top-loading, bottom-feeding High Capacity Feeder adds another 4,000 sheets to your inkjet printer's capacity, and allows you to add more as needed for uninterrupted, seamless printing. Our High Capacity Stacker allows for greater volumes on the other side, too, neatly stacking your finished prints and making them easier to transport.

High Capacity Feeder

Maximize high-speed printing benefits with this option that enables uninterrupted, unattended, high-volume print runs without pausing to reload paper.

Includes a paper reversing unit / flipper which enables printing simplex documents to the Stacker at maximum print speed.

Advantages of High-Capacity Accessories:

- Maximizes the benefits of high-speed printing
- Longer running time without operator intervention - less time spent loading and unloading the machine during long print runs
- Wheeled stacker cart makes it easy to remove and relocate your printed material
- Ideal for production environments
- Built-in collating features compile your output
- Offset stacking feature adds convenience
- Fully adjustable to accommodate various paper sizes and thicknesses

High Capacity Stacker

This option allows stacking of larger output volumes - up to 4,000 sheets - reducing user intervention on large print jobs.

Stacker cart assists in unloading, and neatly and easily transports your finished prints.

When combined with the Face Down Offset Stapler, total output capacity is increased to 5,000 sheets, maximizing your productivity.
