

RISO Multi-Function Finisher II

Multiply the productivity of your Comcolor X1 with your own in-house production facility.

The innovators at RISO understand that increased speed can only take you so far. For real productivity, you need to present a polished, professional end result.

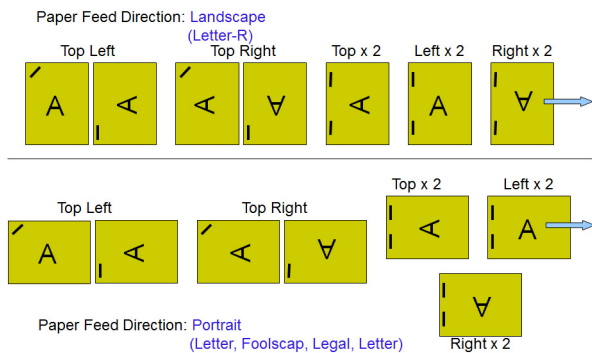

That's why RISO has developed a **Multi-Function Finisher** that couples with our high speed cut sheet inkjet printers, taking your output to the next level. Create complete booklets, collated and segmented reports, and add front and back covers to enhance your work, adding a professional finish to your office output.

Enhancing your productivity and presenting a finished end product has never been so easy.

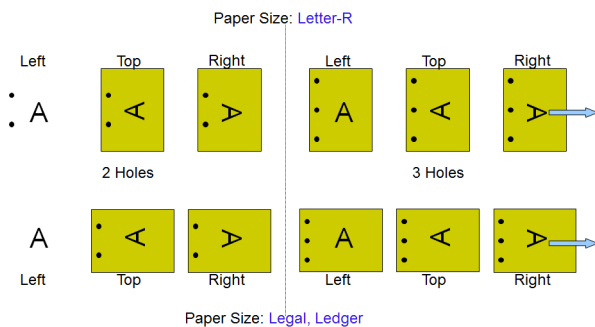

With the Multi-Function Finisher, many of the projects that were previously outsourced to a printer can be kept in-house, saving you time, money and keeping your data in your control.

Finisher Staple Functions

Finisher Punch Functions

Advantages of the Multi-Function Finisher:

- Offers the convenience of stapling, hole punching, folding, booklet-making and offset stacking in-line with the printing process
- Produce fully-finished, folded, stapled booklets with added covers in only minutes
- Excellent for newsletters, playbills, catalogues, calendars, presentation handouts
- Collate multiple sections of reports
- Subset Finishing: staple small sections within a larger, complete document
- Mixed Plexing: generate simplex and duplexed pages within the same set
- Data Integrity: no need to outsource the production of sensitive documents for professional finishing

Speed Up Your Color Communications!

- Everyday communications
- Presentations
- Directories
- Newsletters
- Calendars
- And much, much more!

Multiple inline functions performed automatically simplify the finishing process:

• Stapling

Stapling options include: One corner staple or two staples for up to 100 sheets* of paper.

• Punching

Holes can be punched through documents. Choose two/three holes in the U.S. or two/four holes elsewhere.

• Folding

Various automatic folding options are available [inward; outward; for A3/ledger-to-A4/letter sheet footprint reductions; and two-fold for up to five sheets making a 20-page booklet].

• Booklet making

Automatic saddle stitch stapling of up to 60 pages (15 sheets).

* When using plain paper and recycled paper (23-lb bond (85 gsm))

• Applicable functions may differ according to the printer model.
