

## RISO® Product Compatibility macOS® Catalina

Apple has released macOS® Catalina (10.15) on October 8<sup>th</sup> 2019.

Some of our actively supported products are not currently fully compatible with macOS® Catalina (10.15). We apologize for any inconvenience.

We are diligently working to provide support for macOS® Catalina (10.15).

The RISO printer driver web portal will display the currently supported MacOS® versions.

To access current drivers for your products, visit <https://us.riso.com/resources/print-drivers/>, select your product and then select the Driver link from the resulting page.

For more information about macOS® Catalina, go to <https://www.apple.com/macos/catalina>.
