

RISO Announces the Single-Engine VALEZUS T1200 Inkjet Printer for USA, Canada Market

North American launch of the VALEZUS T1200, 160ppm cut-sheet printer

Woburn, MA – September 15, 2022

RISO, Inc. is proud to announce the launch of a new, single-engine model to our cut sheet inkjet printer lineup: we proudly introduce the **VALEZUS T1200**, now available in North America. The T1200 is intended to be the perfect solution for both short and long run transactional printing, offering the flexibility to meet current and future market requirements.

Designed for production printers that wish to combine excellent cost performance with the flexibility to meet the varying job demands that large continuous feed printers find difficult to handle efficiently, the VALEZUS T1200 is the ideal solution to your needs. This cut sheet inkjet printer delivers the incredible high print speed of 160 pages per minute in color, combined with low investment for installation, space-saving and environmental friendliness.

This compact printer, which supports AFP/IPDS, PS and PDF formats, is designed for easy integration into your current workflow. VALEZUS T1200 creates new business opportunities for you in the diversifying transactional print market.

About RISO, Inc.:

RISO, Inc., headquartered in Woburn, Massachusetts, is a wholly owned subsidiary of RISO Kagaku Corporation, Japan's leading manufacturer and distributor of high-speed inkjet printers and digital duplicators. RISO is the only oil-based production inkjet press on the market, and as a result requires no dryer or decurler, resulting in a compact design and a small footprint that will fit just about anywhere. RISO's ComColor printers offer fast, affordable, environmentally friendly digital color at speeds of up to 320 images per minute. Its line of digital duplicators includes one- and two-color systems that reliably produce millions of copies, are environmentally friendly, and are easy as well as inexpensive to use.
